MEMORANDUM FOR: Docket File No. 40-8728

FROM: Gary R. Konwinski, Project Manager
 Licensing Branch 2
 Uranium Recovery Field Office, RIV

SUBJECT: AMENDMENT NO. 17 TO SOURCE MATERIAL LICENSE SUA-1373

By letter dated October 15, 1985, UNC Teton Exploration Drilling, Inc. informed the Uranium Recovery Field Office that they would be unable to complete decommissioning and decontamination of the Leuenberger facility by November 1, 1985 as originally projected and incorporated into License Condition No. 38 by Amendment No. 15, dated June 10, 1985. The delays were in part due to work scheduling and early winter-like weather. Re-evaluation of the situation by the licensee has determined that the site will be ready for final reclamation activities and seeding by the year's end. Considering the new schedule the staff concludes that the licensee should be granted a time extension for final seeding of the site. The staff therefore finds that UNC Teton Exploration Drilling, Inc. should be granted their proposed time extension from November 1, 1985 to January 31, 1986.

Therefore, pursuant to Title 10, Code of Federal Regulations, Part 40, Source Material License SUA-1373 is hereby amended by revising License Condition No. 38 to read as follows:

38. The licensee shall conduct site decommissioning, decontamination and reclamation in accordance with the following schedule:

OFC :	8512100059 PDR	851108 ADOCK	04008728 PDR				
NAME :							
DATE : 85/11/04							

- a. By May 1, 1985, submit a detailed site decommissioning plan for NRC review and approval.
- b. By January 31, 1986, complete all well plugging in accordance with Wyoming Department of Environmental Quality requirements.
- c. By July 31, 1985,
 - i. Complete disposal of water, sludge and liners in ponds at a licensed disposal site.
 - ii. Complete all equipment decontamination and/or disposal and waste material disposal.
- d. By September 30, 1985,
 - i. Complete earthwork on site.
 - ii. Complete radiation surveys and soil sampling.
 - iii. Complete seedbed preparation.
- e. By January 31, 1986, seed all affected areas.

Final site decommissioning, decontamination and reclamation shall be completed by January 31, 1986. Final site decontamination and decommissioning shall be conducted in accordance with License Condition No. 37.
