Gentlemen:

This refers to your letter dated October 3, 1985, for an amendment to Materials License 12-24371-01.

We received your check for \$125. Your application, however, is subject to an application fee of \$230 as specified in fee Category 3E and Footnote 1(d) of \$170.31, 10 CFR 170, copy enclosed. Footnote 1(d) states in part that an application for amendment to a materials license that would place the license in a higher fee category or add a new category shall be accompanied by the prescribed application fee for the new category. Your request to add Cesium-137 self-shielded irradiator will increase the scope of your licensed program to include fee Category 3E. Payment of the additional \$105 should be made to the U.S. Nuclear Regulatory Commission and mailed to my attention. When submitting the additional fee, please refer to CONTROL NUMBER 379964.

Your application will be sent to the Licensing staff for processing upon receipt of the additional fee. If you have any questions concerning this matter, please let us know.

Sincerely,

Original Signed By
