Dear Sirs:

I would like to request that Whitley County Memorial Hospital's Nuclear Regulatory License #13-17129-01 be amended. Dr. H. R. Griffith currently serves as our Radiation Safety Officer and Chairman of the Nuclear Medicine Committee. However, upon his retirement from Fort Wayne Radiology, we will be replacing him with Dr. R. W. Gize. Dr. Gize previously acted as our Radiation Safety Officer on our license before its recent renewal. We would now like to re-designate Dr. Gize as our new Radiation Safety Officer and Chairman of the Nuclear Medicine Committee.

If this letter will not suffice as an amendment, please send us the necessary forms to designate Dr. Gize for the above positions. Thank you for your cooperation in this matter.

Sincerely,

Larry W. Corbin R.T.
