St. Louis College of Pharmacy
Departments of Chemistry and Biology
ATTN: George Bedard, Ph.D.
Radiation Protection Officer
4588 Parkview Place
St. Louis, MO 63110

Re: Your Letter Dated May 10, 1985 For Renewal Of License Number 24-09236-01

Gentlemen:

In order to complete our review and issue your license amendment, you will need to submit additional information and/or clarification of the following items:

Signature Authority

Please confirm that you are authorized to sign licensing actions for the St. Louis College of Pharmacy. This may be accomplished by providing a statement of authorization by a member of the college executive administrative staff.

Licensed Users

It appears that some users are being deleted and some added to your license. Please provide us with a new list of authorized users and their training and experience with the intended use of material. Specifically, Dr. Zimmer, Dr. Martinez and Dr. Bedard have not filed their training and experience with us.

Radiation Protection Officer

Please provide the name, training and experience of your new Radiation Protection Officer. Please note that this individual should have sufficient training and experience with the radioactive material authorized. Minimal training is considered to be a formalized course in basic radiation protection of forty hours or longer and actual laboratory experience with the authorized radioactive material.

If you have any questions or require clarification on any of the information stated above, you may contact us at (312) 790-5625.

We will continue our review of your application upon receipt of this information. Please reply in duplicate, within 30 days, and refer to Control Number 78945.

Sincerely,

8602200036 851212
