

426  
UNITED STATES OF AMERICA  
NUCLEAR REGULATORY COMMISSION

Before the Atomic Safety and Licensing Board

DOCKETED  
USNRC  
'85 DEC -9 P1:15

OFFICE OF SECRETARY  
DOCKETING & SERVICE  
BRANCH

In the Matter of )  
TEXAS UTILITIES GENERATING COMPANY, ) Dkt. Nos. 50-445-2  
et al. ) 50-446-2  
(Comanche Peak Steam Electric Station )  
Units 1 and 2) )

CASE OPPOSITION TO APPLICANTS' MOTION  
FOR EXTENSION OF TIME  
AND REQUEST FOR SANCTIONS

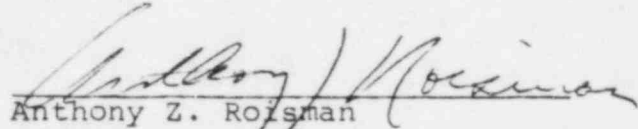

CASE objects to Applicants' latest untimely, eleventh hour, and unsupportable request for extension of time. There is nothing in the call for oral argument by the Appeal Board which justifies the extension. In fact, much of the argument in Applicants' Petition for Directed Certification and the Staff Answer is devoted to speculation about the process this Board will follow in providing for fair warning. By attempting to avoid the resolution of this issue in an orderly manner before the Appeal Board acts, the Applicants are seeking to perpetuate the false assumption that the fair warning process will not be fair or workable. An early decision by this Board will lay that issue to rest and obviate the need for the Appeal Board to address idle speculation by Staff and Applicants.

Applicants once again have filed an extension request when an extension is virtually a fait accompli and disclosed that probably as late as December 4 they had not prepared any filing in response to the November 6 Order. This Board should not

D603

countenance such a procedure. We urge the Board to deny the requested extension today and advise Appicants that any response to the Board's November 6 Order must be filed prior to December 7th.

Respectfully submitted,

  
Anthony Z. Roisman  
Billie P. Garde
