

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D.C. 20555-0001

March 17, 1997

Radiation Safety Officer  
E.I. Company  
7 Cerro Street  
Inwood, NY 11696

Dear Sir:

This is to announce that the NRC will be conducting a sealed source and device vendor workshop on May 8, 1997. The workshop is intended for persons who are directly or indirectly involved in the preparation and submittal of applications to NRC (applicability to Agreement States as well) for safety evaluation of a sealed source or device containing a sealed source (SS&D). The purpose of the workshop is to provide guidance to these individuals so that applications may be more complete, contain less deficiencies, and be reviewed in a more expedient manner. In addition, the workshop will provide applicants and potential applicants the opportunity to ask specific questions concerning the application and review process. Questions and comments from participants of the workshop may be used to revise current regulatory guidance for submitting applications as well as the current review process. Suggested topics include:

- What sealed sources and devices require a safety evaluation.
  - P&GD 84-22, Revision 1.
  - P&GD 3-16, Revision 1.
  - P&GD 84-5 [Technical Assistance Request for Source and Device Evaluation].
  - Agreement State Requirements.
  - NARM Material.
  - Foreign Manufactured Devices and Sources.
  - Medical Devices and Sources (FDA).
- Preparation of the application.
  - Regulatory requirements.
  - Regulatory Guides 10.10 and 10.11.
  - Regulatory Guide 6.9.
  - Proprietary information.
  - Applicant's responsibilities.
    - Pre-application contact (questions, meeting, etc.).
    - Check application for completeness and accuracy.
    - Submittal to correct address and offices.
  - Other NRC offices (Regional Offices, SFPO)
- The review process.
  - Initial Acceptance Review.
  - Applicable regulations.
  - Standard Review Plan for SS&D reviews [NUREG-1550].
- Deficiency letters and phone calls.
  - Typically missed areas.
  - Time allowed for responses.

- Issuance of registration certificates.
- Vendor responsibilities after certificate is issued.
  - Review certificate and check for completeness and accuracy (contents of a registration certificate).
  - Manufacture and distribution in accordance with the registration certificate.
  - Amendments.
  - Incidents.
  - Part 21 notifications.
  - Inactive certificates.
- Who uses the registration certificate?

This workshop is open to all interested individuals, will last one day (8am to 5pm), and will be held in the NRC headquarters auditorium in Rockville, MD. Interested individuals should respond to the address listed below by April 7, 1997, and include the information listed:

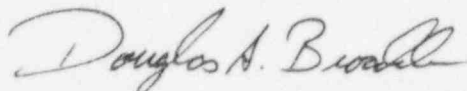

US Nuclear Regulatory Commission  
Office of Nuclear Material Safety and Safeguards  
ATTN: Mr. Douglas Broaddus  
Mail Stop T8-F5  
Washington, DC 20555

- Names of all persons attending.
- Contact name and phone number.
- Company Name and Address.
- Involvement in the application process (vendor, consultant, etc.).

In addition, submittal of suggested topic areas or specific questions (that have general applicability to the application and review process) that persons would like answered during the workshop is encouraged to make the workshop more useful. Following the presentation of the above topics, there will be a question and answer session where these and other questions may be discussed, as time permits.

Questions concerning the workshop should be directed to me at (301) 415-5847 or Ms. Kim Randall at (301) 415-7857.

Sincerely,

Douglas A. Broaddus, Mechanical Engineer  
Sealed Source Safety Section
