Gentlemen:

Thank you for your July 16, 1985, 10 CFR 50.71(e) submittal. The Revision 3 changes to Chapter 17.0 (Quality Assurance Program for Station Operation) have been reviewed as required by 10 CFR 50.54(a).

The review assessed the adequacy of all Revision 3 changes including the reduction in commitment relative to records storage which was accepted in our letter dated November 9, 1984, and other minor changes outlined in our letter dated December 3, 1984. Based on the results of our review, we consider Revision 3 acceptable.
