Gentlemen:

This is in reference to your letter dated July 8, 1985 requesting an amendment to NRC License Number 12-17335-01.

Per our telephone discussion on July 25, 1985, we need an outline of the subject areas covered during the initial training of your proposed users.

To assist you in this effort, I am enclosing a copy of a training outline that was submitted in Medx's application for license renewal. The application was undated but it was received at our office during March, 1982.

Please reply in duplicate within 30 days and reference Control No. 79351. If you have questions or require further information, please contact me on (312) 790-5625.

Sincerely,
