Att: Docketing and Service Branch

OFFICE OF SECRETARY  
DOCKETING & SERVICE  
BRANCH

Sirs:

I am writing to you on behalf of the Democratic Women's Association of the Desert regarding the public comment period set for NUREG-0956, "Reassessment of the Technical Basis for Estimating Source Term". We understand that the comment period is 90 days from the date of issuance which was August 7. A period of 90 days is not adequate to consider such a lengthy and serious document. Since we have just reconvened for the 1984-1985 season and have not had the opportunity to evaluate NUREG-0956, we request that the 90 day review period be increased to 180 days.

Sincerely,

*Carolyn Toenjes*

*October 1, 1985*

U.S. Nuclear Regulatory Commission  
Secretary of the Commission  
Washington, D.C. 20555  
Att: Docketing and Service Branch

Dear Sir:

I am writing regarding the public comment period set for NUREG-0956, "Reassessment of the Technical Basis for Estimating Source Term." It is our understanding that the comment period is 90 days from the date of issuance, August 7th. Such a period of time is not adequate considering the fact that the document is extremely lengthy and is too important to pass over lightly. Our organization only recently became aware of this document and only now is putting in a request for the document for review. Since the document has taken years to produce, we feel that it is only right and fair that the ninety day period for review and public comment be increased to at least 180 days.

Sincerely,

*Dollie Irwin*
