Ms. Evelyn R. Matson
Materials Licensing Section
Nuclear Regulatory Commission
799 Roosevelt Road
Glen Ellyn, IL 60137

Dear Ms. Matson:

Regarding our NRC license 12-16218-01, Mr. G. Rister, plant safety director, has just completed the Nuclear Radiation Safety course offered by Kay Ray, Inc. (See attached certificate.) He is now in charge of our radiation safety program and should be listed as a user of our devices.

Sincerely yours,

L. M. Hoepfinger

CERTIFICATION OF TRAINING

Name: Gregory L. Rister

Company: Henkel Corporation

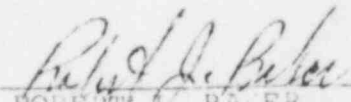

The above named individual has successfully completed the INSTALLATION AND NUCLEAR RADIATION SAFETY course offered by Kay-Ray, Inc., consisting of the following curriculum:

- Principles and practices of radiation protection
- Monitoring radiation levels using Geiger counters
- Radiation exposure limits
- Radiation areas defined
- Calculating radiation levels from known gamma source size and distances
- Calculating dose rates of typical installation
- Leak testing Kay-Ray source housings
- Safety practices required for the use and handling of Kay-Ray source housings
- Installation of source housings demonstration and Hands-On installation

This training course consists of formal discussions, practical applications, leak testing, specific installation discussions, and hands-on installation completion with related forms for record keeping.
