

NOTICE OF VIOLATION

City of St. Joseph

License No. 24-18931-01

As a result of the inspection conducted on November 12 through November 20, 1985, and in accordance with the "General Policy and Procedures for NRC Enforcement Actions," 10 CFR Part 2, Appendix C (1985), the following violation were identified:

1. License Condition No. 13A requires that sealed sources containing byproduct material be tested for leakage at intervals not be exceed six months.

Contrary to the above, the sealed sources in your surface moisture/density gauge had not been tested for leakage in 1983 and 1984.

This is a Severity Level IV violation (Supplement VI).

2. 10 CFR 71.5(a)(2)(iv) requires each licensee who transports licensed material outside of the confines of its plant to comply with the applicable requirements of the Department of Transportation in 49 CFR 177.

49 CFR 177.817 states, in part, that a carrier may not transport a hazardous material unless it is accompanied by a shipping paper.

Contrary to the above, a licensee representative stated that shipping papers did not accompany licensed materials when transported between temporary job sites.

This is a Severity Level V violation (Supplement V).

3. 10 CFR 71.5(a)(2)(iv) requires each licensee who transports licensed material outside of the confines of its plant to comply with the applicable requirements of the Department of Transportation in 49 CFR 177.

49 CFR 177.842(d) requires that packages of radioactive material must be so blocked and braced that they cannot change position during conditions normally incident to transportation.

Contrary to the above, a licensee representative stated that the gauge containing the licensed radioactive material was not blocked or braced when transported.

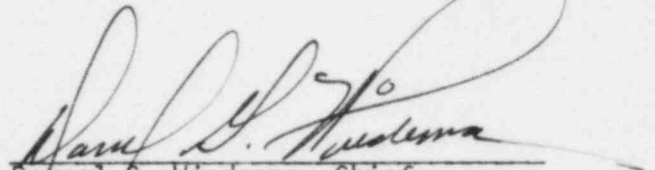

This is a Severity Level V violation (Supplement V).

Pursuant to the provisions of 10 CFR 2.201, you are required to submit to this office within thirty days of the date of this Notice a written statement or explanation in reply, including for each violation:

(1) corrective action taken and the results achieved; (2) corrective action to be taken to avoid further violations; and (3) the date when full compliance will be achieved. Consideration may be given to extending your response time for good cause shown.
