Gentlemen:

An agreement between the Nuclear Regulatory Commission and the State of Iowa for the transfer to the State of certain of the Commission's regulatory authority over byproduct, source and special nuclear materials will become effective January 1, 1986. Consequently, we have amended your NRC License Number 14-20644-01 to authorize use only in the State and issued you a new NRC License Number 14-20644-02 which authorizes use at temporary job sites anywhere in the United States where the NRC maintains jurisdiction for regulating the use of licensed material. Licensed activities conducted under License Number 14-20644-01 will be subject to regulatory control by the State of Iowa as of January 1, 1986. All communications with the State should be addressed to:
