Docket No. 50-142

Dr. Walter F. Wegst, Director
Office of Research and Occupational Safety
Community Safety Department
University of California at Los Angeles
Los Angeles, California 90024

Dear Dr. Wegst:

SUBJECT: REQUEST FOR AMENDMENT TO FACILITY OPERATING LICENSE R-71

This refers to your September 25, 1985 letter requesting amendments to Appendix A of your Operating License R-71.

As you are aware, the Atomic Safety and Licensing Board Order of November 8, 1985 terminated and superseded Operating License R-71. Accordingly, since you now possess the facility under the provisions of the Order to which the University itself agreed, we cannot take action on your request to amend Operating License R-71.

Paragraph C.(2) of Appendix No. 1 to the Order provides that all activities be conducted in accordance with the conditions in Appendix No. 2 of the Order and that you may make no changes to these conditions which significantly decrease the level of safety at the facility or any other changes to the facility unless authorized by the Commission.

If you have any questions, please contact our Project Manager for your facility, Harold Bernard, at (301) 492-9799.

Sincerely,
