SUB-1010Sequoyah Fuels Corporation
ATTN: Dr. John C. Stauter
Director, Nuclear Licensing
Kerr-McGee Center
Oklahoma City, OK 73125

Gentlemen:

By letter dated August 6, 1985, Kerr-McGee Corporation submitted an amendment request for Source Materials License No. SUB-1010 to authorize Mr. Scott C. Munson to serve as Staff Health Physicist in the Environment and Health Management Division. Source Materials License No SUB-1010 stipulates the minimum technical and educational requirements for the individual serving in the capacity. The license does not, however, specify the individuals by name. Thus, no license amendment is required for Kerr-McGee Corporation to employ Mr. Munson as Staff Health Physicist.

We have reviewed the resume for Mr. Munson and find that he meets the minimum technical and educational requirements. The NRC therefore has no objection to the selection of Mr. Munson. We appreciate your efforts to keep the NRC informed on changes in personnel related to the Sequoyah Facility and Source Materials License No. SUB-1010. If you have any further questions related to this matter, please feel free to contact Dr. Donald A. Cool of my staff at 301-427-4510.

Sincerely,

Original Signed By:

W. T. Crow

W. T. Crow, Acting Chief
Uranium Fuel Licensing Branch
Division of Fuel Cycle and
Material Safety, NMSS
