Subject: Limerick Generating Station, Units 1 and 2
Predecisional Enforcement Conference

Gentlemen:

On April 7, 1997, NRC Region I contacted the PECO Nuclear Director -
Licensing requesting a proposed schedule for a Predecisional Enforcement
Conference involving Fire Protection and Chemistry Records.

The purpose of this letter is to propose June 2, 1997 as the date for the
Predecisional Enforcement Conference. This schedule will allow the appropriate
PECO Energy Management to attend the conference who would not otherwise
be able to attend as a result of pre-existing commitments. Due to the
significance of this conference, PECO Energy believes it is important to have the
pertinent members of the PECO Nuclear Management Team in attendance. In
addition, the Management Team is expected to be involved with an upcoming
industry group evaluation of Limerick. This evaluation is scheduled from May
12-23, 1997. In light of the above, we would appreciate your consideration of
our schedule request for this Predecisional Enforcement Conference.
