License No. 37-12821-02
Docket No. 030-19416
Control No. 103776

Calgon Carbon Corporation
ATTN: Jack R. Mennis
Secretary and Counsel
P.O. Box 1346
Pittsburgh, Pennsylvania 15230

Gentlemen:

This is in reference to your request in a letter dated May 6, 1985 to terminate License No. 37-12821-02. In order to continue our review, we need the following additional information:

1. Please submit evidence that all licensed material possessed under License No. 37-12821-02 was removed from your facilities in accordance with NRC regulations in 10 CFR 20.301, 20.303, 20.306, 20.311 or 30.41. Copies of 10 CFR 20 and 30 and NRC Form 314 are enclosed for your use and information.
2. In order to release Laboratory No. 8 and No. 9 located in Building 2 at the Calgon Carbon Corporation Center, Rt. 60, Campbells Run Road, Moon Run, Pennsylvania for unrestricted use, you must assure that the facility meets the NRC's criteria in the enclosed "Guidelines for Decontamination of Facilities and Equipment Prior to Release for Unrestricted Use or Termination of Licenses for Byproduct, Source or Special Nuclear Material". A report of the results of these surveys must be submitted to this office so that we may complete the action requested in your May 6, 1985 letter.

We will continue our review upon receipt of this information. Please reply in duplicate to my attention at the Region I office and refer to Mail Control No. 103776.

Sincerely,

Original Signed By:

CONVERSATION

SUBJECT

Clarification of Calgon Corp vs Calgon Carbon Corp.

SUMMARY

Refer to 37-12521-01 or -02

There are two companies between the -01 and -02
Confusion comes in with the question of who was/or
is in charge of radiation safety program.
Mr. Platte does not know.

Reviewer: Ask for clarification of the safety
program for -01 license. Who's in charge?

NOTE: This is not just a simple name change
for -01 and is not a simple termination
for -02.

REFERRED TO:

Next reviewer.

Action Compl...	Termination

Dear Dr. Glenn:

With respect to NRC Licenses 37-12821-01 and 37-12821-02, please be advised that on June 28, 1982, the corporate name of the holder of the license was changed from Calgon Corporation to Calgon Carbon Corporation. Therefore, please change your records to reflect that the holder of those licenses is Calgon Carbon Corporation.

Please be advised, also, that Calgon Carbon Corporation hereby requests that NRC License 37-12821-02 be cancelled since we are no longer engaged in a research and development program requiring the use of radio-tagged components.

As discussed above, Calgon Corporation underwent a name change on June 28, 1982 and became Calgon Carbon Corporation. Also on that date, June 28, 1982, a new corporation was incorporated in the State of Delaware under the name Calgon Corporation. Enclosed, in duplicate, is a completed application requesting a license from the Nuclear Regulatory Commission for the new Calgon Corporation to possess and utilize Nickel 63 sealed sources. Also enclosed is a check for One Hundred Ninety Dollars (\$190.00) to cover the cost of the application.
