U. S. Nuclear Regulatory Commission
Washington, DC 20555

Gentlemen:

Amendment to License No. 45-01378-02

We request an amendment to the subject license to permit a change in Item 7-B as follows:

FROM: Automation Industries 41701 Sealed
Sources

TO: Automation Industries 3990⁹ Sealed
Sources

The above change is being made so that we can make the necessary modifications to our Automation Industries Model 100 source container to comply with NRC Bulletin 80-22.

Since our Iridium-192 source will be nearly depleted by mid August, your early approval of this request would be appreciated.

Very truly yours,

A. G. Clark, Jr. / LWS
