May 15, 1985

U.S. Nuclear Regulatory Commission
Materials and Byproducts Licensing
101 Marietta Street
Atlanta, GA 30303

Attention: Mr. John Potter, Chief

Dear Mr. Porter:

Enclosed are the Application for Byproducts Material License
[3.P. All other specific byproduct material licenses] that
Molecules for Health, Inc. is submitting to the U.S. Nuclear
Regulatory Commission and the associated fee (\$230.00).

Molecules for Health, Inc. is a small biomedical firm
dedicated to bringing some of its newly synthesized anti-tumor
compounds into the clinician's arsenal for its fight against
cancer. In this endeavor, low energy beta-emitting radioactive
precursors are used in in vitro assays of enzyme systems associ-
ated with cell proliferation and tumor growth.

If there are any questions, please contact me directly at
804 / 229-6230 or Dr. Howard L. Elford at 804 / 644-8591.

We appreciate your expediting the review of this application
and look forward to hearing from you soon.

Sincerely,

Paul L. Zubkoff
