RE: License No. 20-15215-01
Control No. 037-96

Dear Sirs:

We would like to modify our amendment dated
8 May 1985 by increasing the licensed quantity
of Dysprosium-165 to 2000Ci.

This isotope would be used in the manufacture
and development of radiopharmaceutical drug products
and would be distributed to authorized users as
part of a clinical research program.

If there are any questions concerning this
modification, please feel free to contact me at
(617) 695-4600.

Sincerely yours,

Vincent W. DiSpigno
Health Physicist
