

Docket No.: 50-483

DEC 11 1985

Mr. Dan I. Bolef, President  
Kay Drey, Representative  
Board of Directors Coalition  
for the Environment  
St. Louis Region  
6267 Delmar Boulevard  
University City, Missouri 63130

Dear Mr. Bolef:

As one of the parties to the completed proceedings in the matter of Union Electric Company's application for an operating license for the Callaway Plant, Unit No. 1, you have been receiving copies of correspondence to the licensee originated by the Division of Licensing during our review of the application and subsequent licensing and operating of the facility.

In accordance with the Nuclear Regulatory Commission's (NRC) regulations, documents filed by the licensee and correspondence from us regarding the operation of the facility will continue to be made available in the NRC and local public document rooms. In addition, NRC field offices or headquarters will issue public announcements should any significant events occur with respect to the facility.

Since the proceedings to which you were an intervening party have been completed and an operating license issued for the Callaway facility and in light of the availability of documents in the public records, we will discontinue sending you copies of our correspondence to the Union Electric Company. We hope that we have been helpful over the years and that the above sources of information will adequately serve your future needs.

Sincerely,

ORIGINAL SIGNED BY:
