Gentlemen:

This refers to the inspection conducted by Mr. R. E. Baer of this office during the period October 21-25, 1985, of activities authorized by NRC Operating License NPF-42 for Wolf Creek Generating Station, and to the discussion of our findings with Mr. F. T. Rhodes and other members of your staff at the conclusion of the inspection.

Areas examined during the inspection included solid radioactive waste, transportation activities, and low-level radioactive waste storage facilities. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the inspector. These findings are documented in the enclosed inspection report.

Within the scope of the inspection, no violations or deviations were identified.

Should you have any questions concerning this inspection, we will be pleased to discuss them with you.

Sincerely,

Original Signed By
