

Mr. Elderman:

You call this safe?
I don't know how many times
that siren has gone off. Then
'Oh! it's only a malfunction or
a minor leak. ha, how dumb
do they think the public is?'
Look at three mile how they
lied to those people.

I had a son die of cancer
and you never really feel it
till it hits home. How would
you like to live very close
to a nuclear plant?

Did anyone vote to have it
built there? does it supply
Penna.? Funny how they
got along at three mile all
those years when it wasn't
operating.

It took one lousy woman to
get Bible reading out of school
and it can't take scores of

people to shut the nuclear plants
down. I hope and pray Beaver
V. Unit No. 2 never, ever starts up.
Some one was so brite as to build
them, why aren't they bright enough
to see how to get rid of the
wastes without polluting our
rivers & land?

If I could sell and get out of
this Valley I would, believe me
I'm not the only one who feels
this way, but we'd probably
have to move to Japan to get a
job, isn't that terrible, Reagan
doesn't even take care of
his own country first.

Tired up with it all
in Industry, Pa.
