GE Nuclear Energy

70 1113

February 6, 1997

Mr. M. F. Weber, Licensing Branch NMSS
U.S. Nuclear Regulatory Commission
Mail Stop T8-D-14
Washington, DC 20555-0001

Subject: Request for Change in the Fundamental Nuclear Material Control Plan

Reference: NRC License SNM-1097, Docket 70-1113

Dear Mr. Weber:

With reference to activities authorized by NRC License SNM-1097 at the GE fuel fabrication plant in Wilmington, North Carolina, GE requests approval of the attached twenty-six FNMCP changes pursuant to 10 CFR 70.34. For our convenience, we are categorizing all attached changes as 70.34 in this one request; however, some of these changes could be considered 10 CFR 70.32(c) changes.

Beginning with this request, each plan revision is by chapter as described on page 1.2 of our FNMCP.

Pursuant to 10 CFR 2.70⁹(d), GE requests that the attachment to this letter be withheld from public disclosure as it contains information which identifies GE procedures for safeguarding licensed SNM.

The attachment contains FNMC Plan change descriptions and replacement pages. All changes are identified with an asterisk.

Please contact R. L. Bruce on (910) 675-5736 if you have any questions or would like to discuss this matter further.

Sincerely,

GE NUCLEAR ENERGY
