Dear Mr. Brons:

SUBJECT: SUPPLEMENT 1 TO NUREG-0737: REQUEST FOR EXTENSION
OF COMPLETION DATE FOR ITEM 2.b OF COMMISSION ORDER
DATED JUNE 12, 1984

Re: James A. FitzPatrick Nuclear Power Plant

By letter dated August 7, 1985 you requested that we extend the completion date for Item 2.b, submittal of Detailed Control Room Design Review (DCRDR) Summary Report, from November 15, 1985 (the date specified in the Commission Order dated June 12, 1984) until February 28, 1986. Your August 7, 1985 letter cites a delay in selection of a DCRDR contractor as well as an original underestimation of both the complexity of the work and the time necessary to complete it as justification for the requested extension.

The Commission Order of June 12, 1984 allows an extension of time to be granted by the Director, Division of Licensing, for good cause shown. We have reviewed your request and find your justification for the 3½ month extension acceptable. Furthermore, the requested extension would not impact the overall completion schedule for implementation of Supplement 1 items.

In accordance with the terms of the June 12, 1984 Commission Order, we conclude that the licensee has shown good cause for the requested extension and hereby grant the extension of the completion date for Item 2.b from November 15, 1985 to February 28, 1986.

Sincerely,

~~THOMAS W. Vassallo~~/for

Hugh L. Thompson, Jr., Director
Division of Licensing
Office of Nuclear Reactor Regulation
