

OFFICE OF THE
SECRETARYUNITED STATES
NUCLEAR REGULATORY COMMISSION

WASHINGTON, D.C. 20555

October 28, 1985

Edward J. Cullen, Jr., Esq.
Philadelphia Electric Company
P.O. Box 8699
Philadelphia, PA 19101

Re: Limerick Generating Station, Units 1 and 2
Docket Nos. 50-352/353-OL

Dear Mr. Cullen:

This will confirm our recent telephone conversation concerning the need to file copies of answers to discovery requests with the Office of the Secretary. As I indicated, I have discussed this matter with Judge Kohl and Judge Hoyt. They have agreed that there is no need to file answers to discovery requests with the Secretariat if those answers have not been delivered to the Boards. The Licensing Board Order of June 1, 1982 does not require anything to the contrary.

Such matters are solely within the discretion of the attorney providing the answers. A copy of the cover letter should be filed so that the Docket reflects delivery to the party making discovery. However, unless you desire it, copies of the answers themselves need not be included.

Sincerely,

William L. Clements
Chief, Docketing and Service Branch
