Gentlemen:

This refers to the special safety inspection conducted at a field site located at 7545 South Madison in Hinsdale, Illinois by Messrs. W. J. Slawinski and M. A. Kunowski of this office on December 4, 1985, of activities authorized by NRC Byproduct Material License No. 12-13858-01 and to the discussion of our findings with Mr. Mark Bjork at the conclusion of the site inspection and to the telephone conversation with you on December 5, 1985.

The inspection was an examination of activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and with the conditions of your license. The inspection consisted of a selective examination of procedures and representative records, observations, independent measurements, and interviews with personnel.
