Gentlemen:

Please find enclosed three copies of form AEC-313 as our application for a specific byproduct material license. We hope these forms contain all the information necessary for issuance of such a license. Should more information be required, please contact me directly. We hope to start installation by February 15, so anything that can be done to expedite our receipt of the license by that date will be appreciated.

Sincerely, \

E. R. Billen
Maintenance Superintendent
