Gentlemen:

This refers to the special safety inspection conducted by myself and members of my staff on October 10-11, 1985, of activities at Davis-Besse Nuclear Power Station, authorized by NRC Operating License No. NPF-3, and to the discussion of our findings with Mr. L. Storz and others of your staff at the conclusion of the inspection.

No violations with NRC requirements were identified during the course of this inspection.

We understand that you are considering the relocation of certain Technical Support Center personnel and equipment to a space within the protected area, and that your staff will keep us informed of the results of this relocation feasibility study. We also understand that your staff will keep us informed of the unrelated schedule for revising the Emergency Plan and its implementing procedures and for completing required training on these revisions.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosures will be placed in the NRC's Public Document Room.
