Attention: Mr. J. Brown, Jr.
Radioisotopes Licensing Branch

Re: Control No. 00709 - Docket No. 70-2272
Additional Information for License

Dear Mr. Brown:

Should we ever have a need to dispose of the radioactive isotopes they would be returned to the manufacturer in their original shipping containers.

We will have the names and phone numbers of Pete Bacchetti, Jack Ellis, and Joe Johnson posted in more than one location on and near the nuclear monitoring device so that one or more of the above named persons can be notified in the event of a malfunction of said device.

The leak tests will be conducted by:

St. Louis Testing Laboratories
2810 Clark Avenue
St. Louis, Missouri 63103

The leak test kit is made by St. Louis Testing laboratory under License No. 24-00188-02.

Many thanks for your help.

Sincerely,

Pete Bacchetti
