Mr. Monte Conner  
Operating Reactors Branch No. 4  
Division of Operating Reactors  
U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555

Dear Monte,

Enclosed are a copy of the cover letter (license amendment),  
NRC questions, and FNR Safety Analysis for LEU fuel. The  
official package is coming Federal Air Express and may reach  
you before this does.

I have marked the NRC questions and the Safety Analysis in  
red with appropriate cross references. I think you will find  
we have satisfactorily answered the questions.

Sincerely,

*Bob Burn*
