Dear Sir:

Enclosed are our applications for Amendments to our License  
No. 24-1113-13 (A67) and existing Amendments 1, 2, 3, 4, and 5.

I'm enclosing copies of the License and Amendments. Installation  
of this radioactive equipment will increase the total of sources  
in the plant to six (6).

We are continuing a semi-annual wipe test program on all devices  
with the Ohmart Corporation though we understand it is only  
required on a three-year basis. These instruments have served  
us without any difficulty or failure in performing their function  
since installation.

Yours very truly

MONSANTO COMPANY
