SUBJECT: DRAFT TECHNICAL EVALUATION REPORT (TER) FOR SALEM ATWS ITEM 1.2
(GENERIC LETTER 83-28)

Re: Oyster Creek Nuclear Generating Station

The staff has completed a preliminary review to assess the completeness and adequacy of licensee responses to Generic Letter 83-28 Item 1.2. For Oyster Creek, your response was found to be incomplete in four of the areas evaluated.

The enclosed Draft Technical Evaluation Report (DRAFT TER) generated by the staff's contractor provides a technical evaluation representing the staff's initial judgment of the areas evaluated.

In order to meet our present review schedule, we would appreciate your cooperation in obtaining additional information that will permit us to complete our review. It would appear that the needed information on your facility could be obtained by telephone conference within two weeks of your receipt of the enclosed DRAFT TER. Your project manager will be working with you to arrange an acceptable time to conduct the necessary conference calls.

The reporting and/or recordkeeping requirements contained in this letter affect fewer than ten respondents; therefore, OMB clearance is not required under P.L. 96-511.

Sincerely,

Original signed by
