Attention: Mr. Richard E. Cunningham
Chief, Isotopes Branch
Division of Materials Licensing

Dear Sir:

Enclosed is an application for amendment to our license No. 24-01113-13. This license presently has seven amendments and an expiration date of 1/31/74. Amendment requested herein is for a substitution of the source licensed under our amendment No. 6, dated 7/25/68. Owing to process problems the 35 millicurie source proved insufficient and is being substituted by the 100 m.c. source described in the application. The 35 m.c. source is being returned to the Ohmart Corporation. Hence our total number of sources in the plant remains at six (6).

Very truly yours,

MONSANTO COMPANY
