Subject: Facilities & Material License SMB-938
Weldon Spring Chemical Plant
Weldon Spring, Missouri
Contract DCAA41-68-C-0014
Project B33880

Gentlemen:

This letter is to confirm our telephone conversation today regarding responsibility for materials and equipment at the Weldon Spring Chemical Plant, specifically a Varion Aero-graph Gas Chromatograph.

All material and equipment at the plantsite was inventoried and accepted by the Corps of Engineers when Thompson-Stearns-Roger closed its field office on July 31, 1969.

The subject license was issued to The Department of the Army, Edgewood Arsenal, Edgewood, Maryland. All use and transfer of material was under the direction of Edgewood Arsenal and their contractor, the Corps of Engineers. All inventory and transfer records were retained by the Corps of Engineers at the jobsite. We would regard these records as the best source of information regarding present location of any items.

If we can be of any further service, please feel free to contact us.

Very truly yours,

STEARNS-ROGER CORPORATION
