Gentlemen:

Enclosed is Amendment No. 41 to License No. 06-01060-01. You should review this amendment for correctness and to assure that any changes in procedures required by the conditions are implemented.

Please note that we have not authorized Dr. Robbenhaar as a user of byproduct material because you failed to document any training for Dr. Robbenhaar in basic radioisotope handling techniques. We will be pleased to authorize Dr. Robbenhaar to use byproduct material for in vitro studies upon receipt of documentation that he has completed training equivalent to 25% of that listed in Item 2.a., Appendix A, Regulatory Guide 10.8 (enclosed). This training may be obtained from authorized physicians at your own institution.

We wish you continued success with your nuclear medicine service.

Sincerely,

Original Signed By  
John E. Glenn, Ph.D.
