Dear Mr. Wilgus:

Your letter of August 21, 1984 submitted the report required by Item 3 of Supplement 1 to NUREG-0737 describing how the requirements of Regulatory Guide (R.G.) 1.97 have been or will be met. Our contractor, INEL, has reviewed that submittal and prepared the enclosed interim TER, "Conformance to Regulatory Guide 1.97, Crystal River Unit No. 3." We conclude that you have provided explicit commitment on conformance with R.G. 1.97 with the exception of items you have identified. INEL found that for some items your justification for exceptions to R.G. 1.97 is acceptable, but for others could not conclude that adequate justification was provided and has identified these as unjustified exceptions.

You are requested to respond to the open items in the enclosed TER, and also to provide comments if the TER includes any incorrect assumptions or reflects a commitment which you believe is beyond your intent. Since the enclosed TER has been available to you since mid-August, 1985, your response is requested as soon as possible but not later than November 15, 1985.

Sincerely,

***ORIGINAL SIGNED BY**

JOHN F. STOLZ*

John F. Stolz, Chief
Operating Reactors Branch #4
Division of Licensing
