Dear Mr. Buchannan:

I hereby request that the application for a license for the Monsanto Chemical Company, St. Louis, Missouri, Control Number 35121, be amended to reflect Bismuth<sup>210</sup> in place of Uranium<sup>234</sup>. This source has an activity of 0.0152 millicuries (15.2 microcuries) and is a sealed standard source purchased from Atomic Instruments, Cambridge. This source does not have a model number listed.

I would appreciate your notifying the appropriate person in Oak Ridge and myself as soon as this license is granted. Thank you for your help in this matter.

Very truly yours,
