Mr. Robert E. Brinkman
Isotopes Branch
Division of Materials, Licensing
United States Atomic Energy Commission
Washington, D. C., 20545

Dear Mr. Brinkman,

I would like to know if it is necessary to modify Item 9 (authorized use) License 24-1113-78 so that routine chemical analysis may be carried out. I desire to tag an ammonium phosphate compound at levels such that we would not exceed the 30 millicurie limit of the present license.

Sincerely,

William A. Feiler Jr.
