Dear Mr. Haddican:

With respect to the letter of Dr. Feiler of February 8, 1966, and his phone conversation with you on March 15, 1966, we would like to modify license number 24-1113-7 (F-67) to include routine chemical analysis. Specifically we would like to determine the solubility of certain phosphorous compounds in solutions. We intend to have a maximum of 10 millicuries of  $P^{32}$  for this work. Dr. Feiler will be performing this work under my supervision.

Sincerely

Kenneth J. Shaver
