Gentlemen:

ULNRC- 3533

DOCKET NO. 50-483
CALLAWAY PLANT
CONVERSION TO IMPROVED
STANDARD TECHNICAL SPECIFICATIONS
Reference: ULNRC-3298 dated November 29, 1995

The referenced letter described Union Electric's participation in a program to convert the Callaway Technical Specifications to a set based on NUREG-1431, Revision 1. This program is being done in a cooperative effort between TU Electric, Pacific Gas and Electric Company, Wolf Creek Nuclear Operating Corporation and Union Electric Company.

This group last met with NRC on January 24, 1997 to discuss the progress and scope of the conversion process. We have revised our completion date and now anticipate submittal on May 15, 1997.

If you have any questions, please contact us.

Very truly yours,
