

October 30, 1985

The Honorable Joseph Strohl
Wisconsin Senate
State Capitol
P. O. Box 7882
Madison, Wisconsin 53707

Dear Mr. Strohl:

Chairman Palladino has asked me to reply to your September 24, 1985, letter which the NRC received on October 16, 1985. You expressed concern over certain high radiation readings taken by state health personnel on the IF-300 spent fuel cask prior to a June 26, 1985, shipment from the Monticello Plant to Morris, Illinois. You also asked a number of specific questions about that shipment and several other questions regarding our program for inspection of spent fuel shipments.

In cooperation with our regional office in Glen Ellyn, Illinois, we are in the process of developing a comprehensive response to all of your questions. You can expect to receive that response shortly.

Sincerely,

Original Signed By:

James M. Taylor
