RE: DML:IB:JCM

Dear Mr. Malaro:

We would appreciate your assistance for obtaining information on the following item:

Specifications for labels to be used on devices (isotope exposure device for radiographic inspection) and outside packaging for shipment of radioactive material.

This information is desired for both domestic and international use and transportation.

It will be most helpful if you can furnish us information of manufacturers or sources where labels meeting current specification can be purchased.

Yours truly,

C. D. Trowbridge
Director
