Dear Mrs. Dragonette:

Confirming my call of 24 February 1975, the McDonnell Douglas Corporation, St. Louis, Missouri, has a Source Material License No. STB-49. This license expires on 28 February 1975. However, the company does not intend to renew the license as we no longer have a need.

We are making arrangements through Nuclear Engineering Company, Morehead, Kentucky, to receive and dispose of what little thorium we have (36 pounds in the form of ceramic material) in an approved manner. But because of a union strike at our facility, we will not be able to ship the material by the 28th deadline. Not knowing how long the strike may last, we would like to have a 90 day extension on our existing license.

No decontamination of our facility will be needed as the material has been stored for some time in one gallon sealed cans.

Your cooperation in this matter will be appreciated.

Very truly yours,

Thomas C. Linck
