Docket No. 50-454
Docket No. 50-455

Commonwealth Edison Company
ATTN: Mr. Cordell Reed
Vice President
Post Office Box 767
Chicago, IL 60690

Gentlemen:

This confirms the plans discussed on October 28, 1985, with Mr. D. Farrar of your staff and Mr. R. Lerch of this office for the NRC to meet with representatives of Commonwealth Edison Company on November 22, 1985, at 10:00 a.m. in the NRC Region III office, Glen Ellyn, Illinois.

This meeting is an enforcement conference to discuss the inoperable condition of both RHR trains of ECCS; operation of Byron Unit 1 at core thermal power levels in excess of that allowed by the facility operating license; and failure to follow technical specifications and an apparent breakdown in management controls manifested by technical specification violations.

We appreciate your cooperation in this matter and we will gladly discuss any questions you may have regarding the meeting.

Sincerely,

"Original Signed by E.G. Greenman"

Charles E. Norelius, Director
Division of Reactor Projects
