November 1, 1985

PGandE Letter No.: HBL-85-052

Mr. Bruce Boger, Acting Chief
Operator Licensing Branch, AR-5221
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Re: Docket No. 50-133, OL-DPR-7
Humboldt Bay Power Plant, Unit No. 3
Response to Generic Letter 85-18

Dear Mr. Boger:

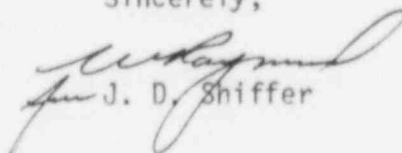

Generic Letter 85-18 requests all licensees and applicants for operator licenses to provide the NRC with a schedule for conducting operator examinations for the remainder of the fiscal year through September 30, 1989. No examinations are planned for Humboldt Bay Unit No. 3.

PGandE is in the process of decommissioning Unit No. 3 in preparation for long term storage (SAFSTOR). PGandE expects the NRC to approve new Technical Specifications which will eliminate the requirement for Reactor Operator and Senior Operator Licenses. Since these new Technical Specifications should be in use by early 1986, no further examinations are required. In accordance with the SAFSTOR Decommissioning Plan, PGandE will maintain a recertification program.

Any questions regarding this response should be directed to Mr. Robert Prigmore, Training Coordinator, at (707) 443-3787, ext. 220.

Kindly acknowledge receipt of this material on the enclosed copy of this letter and return it in the enclosed addressed envelope.

Sincerely,

J. D. Shiffer

Please indicate initial cold license examinations by placing an asterisk (*) by the date. Please indicate examinations intended to extend an operator's license to a second or subsequent unit with two asterisks (**) (e.g., Unit One is in operation and Unit Two is approaching fuel load. Three RO candidates with no previous license are to be examined on both Units One and Two and five RO candidates with licenses on Unit One are to be examined to extend their licenses to Unit Two. Indicate (2/15/85, RO 3,5**)).
