

APR 7 1976

Monsanto Commercial Products Company  
ATTN: John W. Burd, Manager  
Materials Technology  
800 North Lindbergh Boulevard  
St. Louis, Missouri 63166

Gentlemen:

This refers to your application dated February 23, 1976 for a byproduct material license for the possession, use, manufacture, and storage of irradiated semiconductor grade silicon in the form of rods or slices and the distribution of such to persons exempt.

I have been informed that two licenses are going to be issued for your request — one for manufacturing and one for distribution. The \$50 fee that you submitted with the application of February 23, 1976, has been applied to your distribution request. The fee for the manufacturing license is \$1000 as specified in fee category 3B of Part 170, copy enclosed. (This license, which has been prepared, will be issued upon receipt of the fee.) Payment should be made to the U.S. Nuclear Regulatory Commission and mailed to my attention.

If you have any questions, please feel free to call me, (301) 492-7225.

Sincerely,

Original signed by  
J. D. Weiss
