September 20, 1985

Off. 312

The Honorable Anthony C. Deilensen,  
U.S. House of Representatives  
Washington, D.C. 20515.

Honorable Sir:

I do not approve of the President's Tax  
Reform Bill which does not permit Californians  
to take off local, city and state taxes from the  
Federal Income Taxes. Our California taxes  
are too high and it is unfair not to be able to  
take it off.

②  
I also would like to know why the N.R.C.  
gave permission to Long Island Lighting to  
build a nuclear plant and took stockholders'  
money to do so. Now, it is not being allowed to  
be used. Why didn't the N.R.C. investigate  
before allowing it to be built? Now my money  
is all tied up in Long Island Lighting and  
the plant is not being allowed to be used.  
What kind of regulatory Committees do we have

Sincerely yours,  
Anna Walpin Nadler.
