Dear Mr. Keppler:

ULNRC- 1224

DOCKET NUMBER 50-483
LICENSE NUMBER NPF-30
CALLAWAY PLANT
1984 ANNUAL ENVIRONMENTAL OPERATING REPORT

Reference: ULNRC-1086, dated April 25, 1985

The referenced letter transmitted the Callaway Plant 1984 Annual Environmental Operating Report. Section 6.9.1.6 of the Callaway Plant Technical Specifications requires, in part, that the Annual Report "include summarized and tabulated results... in the format of the table in the Radiological Branch Technical Position, Revision 1, November, 1979." While all required sample data was included in the 1984 Annual Report, the summary table format was overlooked at the time the report was prepared. As a result of a recent audit, preparation of the table was thought to be necessary to fully meet the format requirements of the Branch Technical Position.

After developing the enclosed Environmental Radiological Monitoring Program Annual Summary Table we contacted Mr. A. Januska of your office to ask whether he would like us to formally submit the table or include it as part of a subsequent report. Since we had already developed the table, Mr. Januska asked us to submit it. Please insert this table into the front of the Callaway Plant 1984 Annual Environmental Operating Report.

If you have any questions, please contact us.

Very truly yours,
