

October 28, 1985

Docket No. 50-528

Arizona Nuclear Power Project
P. O. Box 52034
Phoenix, Arizona 85073-2034

Attention: Mr. E. E. Van Brunt, Jr.
Executive Vice President

Gentlemen:

By letter dated September 25, 1985, the Federal Emergency Management Agency informed the NRC of their FEMA 44 CFR 350 finding and determination on the adequacy of offsite plans and preparedness for the Palo Verde Nuclear Generating Station. The letter states that, "Based on an overall evaluation, I find and determine that the State and local plans and preparedness for the Palo Verde Nuclear Generating Station are adequate to protect the health and safety of the public in that there is reasonable assurance that the appropriate protective measures can be taken offsite in the event of a radiological emergency."

We have enclosed a copy of this September 25, 1985 FEMA letter and the related certification for your information.

Sincerely,

/s/

R. F. Fish, Chief
Emergency Preparedness Section
