Control No. 463505

Department of the Army
ATTN: HSHG-RP
Fitzsimons Army Medical Center
Aurora, Colorado 80045-5001

Gentlemen:

We have reviewed your letter dated February 15, 1991, requesting an amendment to your Type A broad license to authorize 1LT Scott Moore as the Radiation Safety Officer. However, before further action can be taken, we will need the following additional information.

The submitted information regarding 1LT Moore's training and experience is inadequate to allow us to determine his ability to respond effectively to the radiation safety needs of your program. The April 1982 Draft Regulatory Guide entitled, QUALIFICATIONS FOR THE RADIATION SAFETY OFFICER IN A LARGE-SCALE NON-FUEL-CYCLE RADIONUCLIDE PROGRAM, copy enclosed, describes the qualifications acceptable to the NRC staff for an RSO for a broad scope program. Submit a description of the training and experience of 1LT Moore in accordance with the information specified in Table 1 of the Guide.

If you determine that 1LT Moore does not meet the qualification guidance and believe that he is qualified to act in the capacity of RSO, you may submit a description of his training and experience with supporting justification to substantiate his abilities to address complex radiation safety issues encountered in your licensed activities. In doing so, you should address each of the characteristics identified in Appendix A of the Guide and demonstrate how 1LT Moore is qualified.

In order to continue prompt review of your application, we request that you submit your response to this letter within 30 calendar days from the date of this letter. Please reply in duplicate and refer to Control No. 463505. If you have questions or require clarification on any of the information stated above, we encourage you to contact us at (817)-860-8143.

Sincerely,

Original Signed By

SUMMARY

1LT Moore telephoned to notify the NRC that 2LT Clayton would be returning from active duty in Saudi Arabia to assume his position as HSO of the facility. Clayton's return is scheduled for the week of April 22, 1991. 1LT Moore questioned whether the Army would pursue having him identified as the HSO.

(After discussing the situation with Bill Fisher, the section chief) Mr. Fisher said that it would not be necessary for the Army to pursue that request since Clayton would be in place before we would have Moore authorized. Mr. Fisher said that the Army would not be in noncompliance since we would have authorized 1LT Moore as HSO.
